Currently studying Bachelor of Science in Computer Science Major in Software Technology. I am looking for a job where I can improve my skills in regards to not only programming, but also teamwork, and gain experience in a software development setting.

Education

Bachelor of Science in Computer Science Major in Software Technology
De La Salle University, Manila, Philippines
September 2020 - Present

Projects & Experience

QA/Tester
Jack Frost Ice Cream - Store Website
June 2023 - August 2023
- Became the only QA/Tester for the team, as I used automated testing tools such as Selenium IDE and Jest.
- Both testing tools allowed me to test new features that were newly implemented for the website, allowing for easier tests for repetitive actions, making sure that the program is fully running with no bugs.

QA/Tester
SRIXON Pro Shop Alabang - Inventory Manager Website
January 2023 - April 2023
- Became a proactive QA/Tester for the team, as I guided my teammates in finding bugs in the code.
- Communicated well with the Developer team in making sure the program runs with no crashes or bugs.

Developer
Book n Eat
October 2022 - December 2022
- Became a developer for a website that allowed users to create reservations and leave comments and likes on a restaurant branch.
- Implemented a login system that allowed for different instances of users.

Skills

- Knowledge of C++, Java, Javascript, Python
- Knowledge of Selenium IDE
- Knowledge of front-end and back-end
- Knowledge of databases, MongoDB and SQL, and Rapidminer
- Great communicator with team members
- Problem solving skills
- Attention to detail
- Cooperative with team members
- Dependability
